ABSTRACT

This inventory-directory provides information on the formal cooperative arrangements of colleges and universities in the State University of New York system. Each entry gives the title of arrangement, names the coordinator or contact person, the beginning date, the participating institutions, and describes the purposes of the arrangement or program. The listing is based on a survey conducted during the winter of 1971 of all cooperative arrangements operating or pending as of January 1971. Only those arrangements which involve cooperation with other institutions of higher education, whether public or private, and which result in a sharing and extension of the academic resources of the institutions involved are included. An analysis of the kinds of institutions represented shows that 199 involved State University institutions only, while 329 involved 1 or more private colleges, out-of-state public or private colleges, or senior colleges of the city University of New York. Nineteen types of cooperative arrangements were identified. (JS)

# INTRODUCTION

This report is an inventory-directory of the formal cooperative arrangements involving the institutions under the program of the State University of New York. It is based on a survey conducted during the winter of 1971 of all cooperative arrangements either active or pending as of January 1971. The listings in this directory are a portion of the data collected in that survey. Only those arrangements which involve cooperation with other institutions of higher education, either public or private, and which result in a sharing and extension of the academic resources of the colleges involved are included in this report.

Certain cooperative arrangements which meet the above criteria are well known and centrally recorded elsewhere and therefore have been left out of the listings. These include the Study Abroad Programs, University of the Air, Independent Study (Correspondence Courses), Clinical Affiliation Programs and other long-standing arrangements which take advantage of the inherent cooperative relationship between institutions belonging to the multi-institution State University of New York.

The arrangements included in this report are listed by campus within types of institutions. Descriptions of the arrangements appear as they were reported and questions concerning them should be addressed to the coordinator or contact person listed for that arrangement. Only those cooperative arrangements which a college reported and which are within the scope of this report are listed under the name of the college. No attempt has been made to write in an arrangement for a college that was reported by another college as being shared with the former.

Because of the variety and innovative nature of many of these cooperative efforts, there has been no regular reporting or Central Staff record of them in the past. While the inherent flexibility and non-standardization of these arrangements is necessary to their function, it also is responsible for their elusive nature when there is a need to locate and describe them. Consequently, the listings in this report represent the best efforts of the campus respondents and the Central Staff Office of Institutional Research, and it is understood that some coopera-

tive arrangements may have escaped our attention. Judging by the response to the survey, the listings we do have are very representative of the kinds of cooperative arrangements which do exist. It is hoped that this report can assist the future planning and conducting of similar programs.

An analysis of the kinds of institutions involved in the reported arrangements reveals that while 199 were with only State University institutions, 329 involved one or more private colleges, out-of-state public or private colleges, or senior colleges of the City University of New York. Of these 329, 141 involved only private or out-of-state institutions. It would seem that the bases of these arrangements are common interests and problems which prompt the colleges to seek appropriate partners regardless of the "sector" to which they may belong.

Another aspect of the breadth of these arrangements is the various kinds of cooperation that exist. The table on the following page lists the numbers of each type of arrangement found in this report.

The benefits of these cooperative arrangements are shared by students, faculty, and administrators. The variety and scope of the cooperation indicates that these informal and formal arrangements greatly enhance the educational effectiveness of the colleges involved.

We are grateful to all the campus personnel who participated in the data gathering for this report. We would appreciate your comments regarding this survey and report as indicators of the wider scope of the State University's programs.

Title of Arrangement

Regional Consortium

Coordinator or Contact Person

William A. Robbins

Beginning Date September 1, 1970

Other Institutions Involved

Two-Year College Student Development Center (SUNYA); Agricultural and Technical Colleges: Cobleskill, Delhi, Morrisville; Community Colleges: Adirondack, Clinton, Columbia-Greene, Dutchess, Fulton-Montgomery, Herkimer County, Hudson Valley, Mohawk Valley, Schenectady County, Sullivan County, Ulster County

Purposes

Regional Consortium is an association of 14 regional two-year colleges and the Two-Year College Student Dev. Center (SUNYA) established to develop a program of cooperative activities to help these participating colleges deal with some of the concerns facing them. The consortium plans to help meet these needs such as: development of program of studies; sponsorship of in-service training programs; preparation of surveys and reports based on observations and research conducted at the participating college's campus.

Accomplishments

Two interim reports have been submitted to the member colleges: (1) Curriculum enrollment trend study (2) In-house studies report

Title of Arrangement

SUNYA State University Program in Student Personnel Services

Coordinator or Contact Person

Prof. David Hartley

Other Institutions Involved

New York State Colleges, two-year colleges and SUNY Centers

Purposes

A graduate internship program to prepare student personnel specialists for positions in colleges and universities. It requires two summers of study at Albany and a intervening academic year devoted to internship and part-time study at one of the cooperating institutions. It leads to conferral of the Master of Science by SUNY Albany.

State University of New York Colleges and Doctoral Programs in Education

Coordinator or Contact Person

Dr. Kenneth Frasure, Educ. Admin.
Dr. Joseph Leese, Curriculum-Instruction

Other Institutions Involved

The State University colleges offering master's programs in Educational Administration and Curriculum-Instruction

Purposes

Master's degree courses and programs at the State colleges are coordinated with the program at Albany so that up to one-half of the program requirements for the specialist in Education and the Doctor of Education may be completed at one of the participating colleges.

Title of Arrangement

Research Participation

Coordinator or Contact Person

Prof. Jagadish Garg

Beginning Date January 1969

Other Institutions Involved

Rensselaer Polytechnic Institute

Purposes

The staff and students at R.P.I. have used our neutron generator for conductive research in nuclear physics.

Accomplishments

The cooperative efforts have been very successful, and continued cooperation is requested.

Title of Arrangement

Cranberry Lake Program in Biology

Coordinator or Contact Person

Prof. Donald McNaught

Other Institutions Involved

New York State College of Forestry

Purposes

This is a cooperative program of instruction and research conducted during the summer. The program combines faculty, facilities, and specialized equipment from both institutions and credit is applicable as resident credit in appropriate graduate and undergraduate degree programs offered by SUNYA and Syracuse University.

* * * * *

Title of Arrangement

Cranberry Lake Biological Station

Coordinator or Contact Person

Dr. Donald C. McNaught

Beginning Date summer 1967

Other Institutions Involved

New York State College of Forestry

Purposes

1. To provide undergraduate and graduate formal course work during the summer in ecology and related field biology-emphasis on fresh water and terrestrial ecology.
2. To provide field research for graduate students during summer months.
3. To provide field research for graduate students and faculty on a yr-round basis.

STATE UNIVERSITY OF NEW YORK AT ALBANY

ACTIVE COOPERATIVE ARRANGEMENTS

Accomplishments

About six Ph.D. students have found thesis research projects at Cranberry Lake. Two SUNYA faculty have on-going research projects at Cranberry Lake. Fifty one students were enrolled in formal courses during summer 1970.

* * * * *

Title of Arrangement

Bachelor of Science in Medical Technology

Coordinator or Contact Person

Dr. Frederick H. Truscott
Dr. Hudson Winn

Beginning Date September 1968

Other Institutions Involved

Albany Medical Center

Purposes

To provide a four year program leading to the B.S. degree with a major in medical technology. During the first three academic years students enroll in basic science courses (biology, chemistry, physics, and mathematics) and fulfill all liberal arts degree requirements. The fourth year is a calendar year internship at Albany Medical Center involved in clinical training in medical technology.

Accomplishments

Approximately 20 seniors are currently enrolled at Albany Medical Center for the internship year. There were 18 graduates of the program in 1970.

Title of Arrangement

Angular distribution studies using high resolution Ge(Li) detectors at the Dynamitron accelerator

Coordinator or Contact Person

Prof. J. Garg
Prof. H. Bakhru

Beginning Date June, 1971

Other Institutions Involved

SUC at Plattsburgh

Purposes

Level structure studies of odd mass deformed nuclie will be conducted. For this the angular correlation table is being set-up. The high resolution Ge(Li) detectors will be used to obtain the spins and parities of the excited levels.

Accomplishments

The research work will be published in the Journals and reported in the various meetings

* * * * *

Title of Arrangement

Neutron Induced reactions using (D,T) machine at SUNY, Albany

Coordinator or Contact Person

Dr. H. Bakhru

Beginning Date (already in progress)

Other Institutions Involved

Rensselaer Polytechnic Institute

Purposes

Using 14 MeV neutrons study of (n,2n), (n,x) and (n,p) reactions is conducted. Y-ray spectroscopic studies of neutron enriched isotopes is in progress

Accomplishments

Work is reported in the various meetings of American Physical Society Meetings and published in the Physical Review and Nuclear Physics Journals

* * * * *

Title of Arrangement

Heavy Ion reaction and spectroscopy work at Yale University

Coordinator or Contact Person

H. Bakhru

Beginning Date In progress

Other Institutions Involved

Major Heavy Ion Facility for the North-East region (Universities involved: Columbia, M.I.T., Texas A & M, G.E., RPI, Clark, Yale)

Purposes

The use of 10 MeV/nucleon Heavy Ion beams of $He^3$, $He^4$, $C^{12}$, $N^{14}$, $O^{16}$, $B^{10}$, $B^{11}$, $F^{19}$, $S^{32}$, $Ne^{20}$ etc. are used to study the Heavy Ion reactions i.e. (HI, xn) reactions. Spectroscopic studies of neutron deficient isotopes are conducted.

Accomplishments

Series of Research papers are published in the Journals like Physical Rev and Nuclear Physics

Cooperative relationship between SUNYA and Dudley Observatory

Coordinator or Contact Person

C. L. Hemenway

Beginning Date 1964

Other Institutions Involved

Dudley Observatory

Purposes

Development of research strength in astronomy and space science cooperatively between these two institutions. Dudley Observatory serves as the principal research arm of the SUNYA astronomy department.

Accomplishments

Dudley is operating on a research budget of about $700,000 per year and has recently acquired a radio telescope for the shared use of SUNYA. A number of experiments in the NASA space program are being carried out through Dudley with the help of the SUNYA students and staff.

Magnetic Resonance Studies of Lunar Material

Coordinator or Contact Person

David Kline, Dept. of Physics

Beginning Date July, 1969

Other Institutions Involved

Oak Ridge National Laboratory

Purposes

Contribute to the understanding of the origin, history, and formative processes of lunar material through (a) study of internal electric and magnetic fields in the lunar samples and (b) study of the amounts and chemical states of various elements in the lunar samples.

Accomplishments

Results published in the literature and presented at the 1970 and 1971 Lunar Science Conferences of nuclear magnetic resonance studies of lunar material at SUNYA show evidence of atomic disorder and the presence of mineral components which contain strains. Evidence of small internal magnetic fields in lunar samples has also been reported

Title of Arrangement

Cooperative Course in Latin American History (History of the Gran Colombia)

Coordinator or Contact Person

Frank G. Carrino

Beginning Date February 2, 1971

Other Institutions Involved

SUC New Paltz

Purposes

To offer students from the Albany and New Paltz campuses and opportunity to study the history of a particular region of Latin America

Accomplishments

This course is being taught at the Albany campus by Dr. Ignacio Mendez of the New Paltz campus on Tuesdays, 6 to 9 pm in room BA 363

Coordinator or Contact Person

James M. Lewis

Beginning Date 1969 and still active

Other Institutions Involved

College of St. Rose
Siena College
Union College
Rensselaer Polytechnic Institute
Hudson Valley Community College

Purposes

To discover ways in which the participating institutions might assist the urban community to develop a strong, active, informed, and united leadership for dealing with their own problems

Accomplishments

Persons with leadership potential have been identified and are being trained through use of university resources. In addition, methods are being developed to establish continuing research programs to define and respond to unmet community needs through university resources

Purposes

Exchange of information and guest speakers to faculty and students, local high schools and elementary schools--urban and rural. Civic and service groups and individuals and families, religious groups. We also receive and disseminate information with transportation department, enviromental conservation, health department, Dept. of Commerce, Public Service Commission, Governor's Office (Executive Chamber), League of Women Voters, GE Research and Development Center, Regional Planning Commission, Univ. of Pa., Rockefeller U., Columbia U., Michigan U., University of Toronto, Cornell. Thru students at N.Y.U., Buffalo, Stony Brook, have worked with almost all departments on this campus. Contact with Corning, Dan Button, Sam Stratton, Ottinger. Life communication, Time, Times Union, Knickerbocker. Area radio stations, T.V. stations 6, 10, and 17. Tobin Packing, Attorney General, Environmental Facilities Corp., Natural Beauty Commission, VISTA, Professional people in area, military.

Accomplishments

Abortion reform work done, grant to study environmental impact on highways, Environmental Decisions Committee-established by Benezet. Establishment of mental disciplinary courses attributed to interests of students. Radio and T.V. programs--direct result of student scheduling programs Times Union reporting.

Title of Arrangement

Cooperative Arrangements with SUNY Centers and the College of Forestry

Coordinator or Contact Person

Dr. J. Fredericks Volkwein

Other Institutions Involved

SUNY Buffalo, SUNY Stony Brook, SUNY Binghamton, New York State College of Forestry

Purposes

Doctoral students in good standing may take work at any of the cooperating universities without submitting academic credentials and without going through the usual admission and application procedures.

Accomplishments

This program has just begun and it is designed to permit advanced graduate students to take advantage of highly specialized course offerings at other SUNY units.

Title of Arrangement

Cooperative Educational Program with Department of Mental Hygiene

Coordinator or Contact Person

Irving Verschoor

Other Institutions Involved

Department of Mental Hygiene
School of Education of Univ. of Massachusetts
New York State Psychiatric Institute
Eleanor Roosevelt Developmental Services

Purposes

To prepare people trained in various levels to deal with the problem of mental retardation.

Accomplishments

The educational institutions listed are arranging training programs on various levels from the para-professional in our two-year colleges to the doctoral level at the Univ. of Massachusetts. In addition to the theoretical training, internships for the doctoral students are currently being established among the institutions listed above including the College of General Studies. The main thrust of this broad-range program is to provide better mental health care as a decentralized service with a strong link to the educational services arranged by the institutions mentioned above.

Title of Arrangement

Albany Area Cooperative Program

Coordinator or Contact Person

Dr. J. Fredericks Volkwein

Other Institutions Involved

Union University, Union College
Albany Medical College, Albany Law School
Rensselaer Polytechnic Institute

This program provides for the inter-institutional study of doctoral students and some master's degree students in the universities in the capital district. Students receive resident credit towards their graduate program for courses taken under these arrangements.

Accomplishments

The program benefits the cooperating institutions by allowing graduate students to take advantage of a specialized course offering and specialized faculty in the Albany area.

Title of Arrangement

Albany Study Center for Learning Disabilities

Coordinator or Contact Person

Dr. Frank R. Vellutino, Director

Beginning Date 1961

The Study Center has functioned under the joint auspices of the above-named institutions for approximately 10 years

Other Institutions Involved

Albany Medical College
New York State Department of Mental Hygiene

Purposes

The Center has a threefold mission: to conduct research in the area of learning and developmental disorders, to provide a practicum facility for undergraduate and graduate students from the institutions which support it, and to provide assessment, treatment, and consultation services in behalf of children from the Albany Metropolitan Area.

Accomplishments

1. The Center staff has been involved in ongoing research and demonstration since its inception and they have made definitive contributions to the literature in the field of learning disabilities. 2. The Center has become an active training facility and currently facilitates field practicum experiences for students from the Departments (SUNYA) of Educational Psychology, School Psychology, Psychology, Special Education, Reading, Social Welfare, and Speech and Language. It has also provided an observation facility for medical students and residents from the Albany Medical College The Center provides direct services for between four and five hundred school age children annually. It also provides consultative and training services for schools and agencies concerned with the treatment of educationally handicapped children.

Coordinator or Contact Person

A. F. Pasciuto
R. A. Myren

Beginning Date September 1970

Other Institutions Involved

Albany Law School

Purposes

To assist in the cooperative development of the School of Criminal Justice and Albany Law School, by making courses in Law and Social Control, Nature of Crime and Criminal Justice Administration and an outstanding variety of faculty available to future lawyers and to make a law school, its environment, courses and legal resources available to our students.

New York State Department of Employment
Canton Agric. & Tech. College: Urban Centers: Brooklyn and Capital District; Community Colleges: Mohawk Valley, Corning, Orange, Onondaga, Jefferson, Fashion Inst., Genesee, Nassau, Monroe, Rockland, Kingsborough, Fulton-Montgomery

Purposes

To provide resource help in career counseling to practicing counselors in three fundamental areas:

1. Current manpower trends
2. Use of the DICTIONARY OF OCCUPATION TITLES
3. Utilization of value's and attitudes' inventories

Coordinator or Contact Person

Irving A. Verschoor

Beginning Date August 1970

Other Institutions Involved

Hudson Valley Community College
Agric. & Tech. College at Cobleskill
Fulton-Montgomery Community College
Columbia-Greene Community College
Schenectady County Community College

Purposes

To present a unified approach in offering educational television credit courses over WMHT (UHF) Channel 17 Schenectady. This involved utilizing faculties from the several campuses mentioned above agreeing upon a uniform charge per credit hour for tuition, coordinating meeting arrangements for the students to meet and engage in discussions as a part of their course work and in the case of the language courses, meetings with the instructor and the provision for tape recorders to aid the students in the audio aspects of language study.

Accomplishments

One accomplishment is the fact that the presence of these courses as a recognized credit course on each of the campuses has helped enrich the curriculum in several of the community colleges. A second aspect is the common advertising and bulletins have presented the academic institutions of the region in a single light to the people residing within the viewing area of Channel 17.

Ph.D. in Classics with a major in Classical Archaeology

Coordinator or Contact Person

Dr. Mary G. Goggin

Beginning Date September 1, 1972

Other Institutions Involved

SUNY at Binghamton, SUNY at Buffalo, SUNY at Stony Brook

Purposes

The Department of Classics at Albany now has a doctoral program with majors both in Greek and Latin. Our Department also offers a rather generous program of course offerings in Classical Archaeology, and we would like to make possible for some of our interested students in our Ph.D. program a major in archaeology. There is no such major anywhere else in our University system, but at Binghamton, Buffalo and Stony Brook there are faculty trained in this field who could cooperate in a joint program, a program which would be centered here at SUNYA.

Accomplishments

We feel that this program would greatly strengthen the Department of Classics here at SUNYA and strengthen the overall program of this State University, since practically every major university in this country does offer a doctoral program with specialization in classical archaeology.

Graduate Work in Italian Language & Literature.

Coordinator or Contact Person

Aldo S. Bernardo

Beginning Date Fall, 1969

Other Institutions Involved

SUNY-Albany.

Purposes

To enable the two institutions to offer a quality Graduate Program in Italian Language & Literature by sharing present resources and manpower and by planning carefully in the future so as to avoid duplication. Since the department at Albany has been strong in contemporary periods of Italian Literature & Culture and Binghamton has been strong in earlier periods the two parties have agreed to continue building on such strength rather than duplicating excessively in other areas.

Accomplishments

We have so far had one graduate student who has spent a semester at Albany where he took three courses, mostly in the more recent periods of Italian Literature, retaining his graduate assistantship which he held here at Binghamton. He successfully completed the courses and has returned to Binghamton.

Medical Library Association - Duplicate Exchange Program

Coordinator or Contact Person

Mrs. Evelyn Lane

Beginning Date 1960

Other Institutions Involved

Member libraries of Medical Library Assoc.

Purposes

To exchange duplicate copies of library materials either withdrawn from collection or received as gifts with member libraries of the Medical Library Association

Accomplishments

Although the MLA exchange program has been in effect since 1960 and our library has been able to fill in gaps in our collection, primarily missing or lost periodical issues, the single greatest accomplishment has been our ability to provide the new SUNY Stony Brook Medical Library with complete volumes of periodicals received as gifts from other libraries or individual donors. Working with the medical librarian at Stony Brook, we were able to expedite their acquisition program by giving them first preference for complete and/or bound volumes of those titles of journals known to be essential to all medical libraries. Lists of incomplete volumes or single issues were also provided that helped them select other needed items. We were also able to help other newly established medical libraries in this manner, such as the Medical College of Ohio at Toledo and the Milton S. Hershey Medical Center.

Title of Arrangement

Central New York Regional Medical Program, Resource Library

Coordinator or Contact Person

Suzanne Murray, Liaison Librarian

Beginning Date 1965

Other Institutions Involved

Medical and hospital libraries in the 17-county area of Central New York and northern Pennsylvania comprising the Central New York Regional Medical Program headquartered at Upstate Medical Center.

Purposes

1) To serve as a resource library to supplement local library resources through interlibrary loan of material not available locally.
2) To provide literature searches and reference service to health professionals either directly or through their local libraries.
3) To encourage and assist in the development and improvement of local libraries by providing consultation services to hospital administrators or librarians in the practical problems encountered in organizing, staffing, housing and maintaining a medical library.

Accomplishments

1) Interlibrary loans are being provided at the rate of approximately 350/per month.
2) Literature searches and reference requests are being provided at the rate of approximately 20/per month.
3) The Liaison Librarian has visited most of the hospital libraries at least once in the area to offer consultative service.
4) Upstate Medical Center staff members participated in a one-day workshop for hospital librarians held at the Medical Center.
5) Libraries are provided copies of the monthly Library Bulletin, the annual Alphabetical List of Serials Currently Received and Subject List of Serials Currently Received.

Title of Arrangement

Syracuse University Library and Upstate Medical Center Library Cooperation.

Coordinator or Contact Person

Evelyn L. Hoey

Beginning Date 1950

Other Institutions Involved

Syracuse University

Purposes

When the State University of New York purchased the State University College of Medicine and its library, informal arrangements were made between the librarians that the Upstate Medical Center Library would serve as the official library for the School of Nursing in order to obviate the necessity of dividing the library collection and to promote inter-university cooperation.

Accomplishments

Syracuse University School of Nursing faculty, undergraduate and graduate students are provided full library privileges in the Upstate Medical Center Library. This includes use of material in the Library as well as borrowing privileges, reference assistance, and instruction in the use of the Library. Because of the increasing number of graduate programs in the bio-sciences areas at Syracuse University, the increasing development of interdisciplinary sciences, and the proximity of the two campuses, a mutual agreement was made to accord full library privileges to faculty members of each institution. Library privileges to graduate students of Syracuse University would be granted upon written request from a Syracuse University faculty member, stating the student's need for use of material not available at the Syracuse University libraries.

Program Cost Allocation Study

Coordinator or Contact Person

David A. Sinclair

Beginning Date 1969

Other Institutions Involved

American Association of Medical Colleges
Department of Health, Education and Welfare

Purposes

To better understand and improve relationships between Federal agencies and medical centers and determine ways to reduce time, effort and complications of present reporting requirements. Also, to develop a relatively simple and practical method for estimating the costs of each of the various programs conducted in a medical center.

Accomplishments

Forms a solid data base upon which information is made available to receive adequate support in the future from the federal government and the private sector of our society.

Coordinator or Contact Person

Mrs. Patricia Onsi

Beginning Date 1968

Other Institutions Involved

Francis A. Countway Library, Harvard Univ. Medical School
National Library of Medicine

Purposes

To cooperate with the National Library of Medicine in cataloging new books for inclusion in its publication Current Catalog.

Accomplishments

The National Library of Medicine publishes a monthly catalog, cumulated annually, of books received. This publication, Current Catalog, serves as a national standard for classification and catalog information for medical libraries throughout the nation. Cataloging assistance from the participating libraries has resulted in more prompt delivery of catalog information in Current Catalog, has avoided duplication of cataloging effort by the participating libraries, has broadened the scope of medical literature coverage for subscribing medical libraries, and has provided to libraries location information for material cataloged by the participating libraries.

# WESTCHESTER COMMUNITY COLLEGE

ACTIVE COOPERATIVE ARRANGEMENTS

Title of Arrangement

Journalism Internship with Good Counsel College, White Plains, N. Y.

Coordinator or Contact Person

Ronald J. Reid, Assistant to the President for College Relation

Beginning Date September 14, 1970

Other Institutions Involved

Good Counsel College

Purposes

Designed to give a student in the senior year a work experience at the trainee level in her chosen field.

Accomplishments

The internship has been of mutual benefit to the intern and to the college. It is the feeling of this office that the intern benefited from actual on-the-job experience in the journalism - public relations area, and learned many of those things which are available only through on-the-job training. The college benefited by being able to do things which would not have been possible without the assistance of a well-trained journalism intern, including the "Good News Line" journalism experiment.
